

ExactLogic BACnet Thermostats are compliant with BABA act.

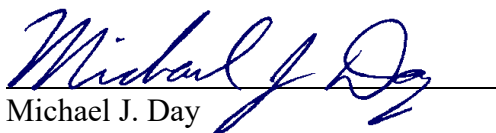

ExactLogic products are made in the USA of U.S. and imported parts.

With our facility located in Rogers, Minnesota, ExactLogic is proud to announce that all of our BACnet thermostats (EXLXXXXX) are compliant for use on any Build America Buy America Act projects.

ExactLogic BACnet thermostats are compliant with the BABA by being made of U.S. and imported parts, with additional American made cases, American made circuit boards, circuit assembly in America and final manufacturing in our facilities in Rogers, Minnesota such that the American components exceed 55% of the product cost.

ExactLogic provides high level skills including:

- Electronics design
- Product design
- Operating system programming
- Logic sequence programming
